

FlashCard Generation

Prompt : can you give me flashcards on "Quantum Phycs"

Tool input given by Claude:

```
{  
  `topic`: `Quantum Physics`  
}
```

Tool output given to Claude:

```
=====
```

Flashcard Set: Quantum Physics

```
===== 1.
```

Front: What is Quantum Physics?

Back: A branch of physics that studies the behavior of matter and energy at the smallest scales, such as atoms and subatomic particles. Explanation: Quantum physics is a fundamental theory in physics that describes the behavior of matter and energy at the smallest scales, including atoms, molecules, and subatomic particles. It is based on the principles of wave-particle duality, uncertainty, and the probabilistic nature of physical phenomena..
